

### **computer case with cd pdf**

A computer case, also known as a computer chassis, tower, system unit, CPU (when referring to the case as a whole rather than the processor), or cabinet, is the enclosure that contains most of the components of a computer (usually excluding the display, keyboard, and mouse).. Cases are usually constructed from steel (often SECCâ€”steel, electrogalvanized, cold-rolled, coil) or aluminium.

A computer fan is any fan inside, or attached to, a computer case used for active cooling.Fans are used to draw cooler air into the case from the outside, expel warm air from inside, and move air across a heat sink to cool a particular component. Both axial and sometimes centrifugal (blower/squirrel-cage) fans are used in computers. Computer fans commonly come in standard sizes, and are ...
