

construction trash chute for pdf

DURACHUTE® Molded Plastic Chutes. CHUTES International's DURAFLEX® system was designed to meet lightweight, economical construction debris removal needs. The DURACHUTE® system is the choice system for roofers, scaffolding, general contractors, and construction rental companies. The blow-molding process makes a more resilient chute than any other on...

DURACHUTE® Molded Plastic Chutes - Chutes International

The top of the chute is the section that actually exits the building through the roof. Code requires that the chute is fitted with a vent cap and that the cap is at least 48 inches above the roof. This allows air to pass across the top of the vent. Without this, noxious fumes and gasses can build up in the chute.

Trash Chutes and the Life Safety Code

CONSTRUCTION TRASH DEBRIS CHUTES - Associated Scaffolding

(Instructor Note: See WAC 296-155-785) Trash chutes (also called disposal chutes) are commonly used on high rise projects. They are also used by remodelers and roofers to keep their job sites cleaner and safer. No material shall be dropped to any point lying outside the exterior walls of the structure unless the area is effectively protected.
