Obesity and Cancer Fact Sheet - National Cancer Institute

The laparoscopic cholecystectomy is considered the "gold standard" in chronic calculous cholecystitis treatment. After the gallbladder removal the physiology of gallbladder bile formation is changed.

Postcholecystectomy syndrome - drturumin.com

Structure. The gallbladder is a hollow organ that sits in a shallow depression below the right lobe of the liver, that is grey-blue in life. In adults, the gallbladder measures approximately 7 to 10 centimetres (2.8 to 3.9 inches) in length and 4 centimetres (1.6 in) in diameter when fully distended. The gallbladder has a capacity of about 50 millilitres (1.8 imperial fluid ounces).

Gallbladder - Wikipedia

Many people have cured their cancer using nothing but a massive change in their diet. The cancer diet is just as important as the cancer treatment!

If your gallbladder is removed where is the bile stored

Intra-operatively â€¢ Cystic duct-gallbladder junction was clearly identified â€¢ Once adequate visualization of the cystic duct and artery was confirmed

Bile Leak after Laparoscopic Cholecystectomy

It's important to briefly differentiate primary liver cancerâ€”that which originates in the liverâ€”from liver metastases, which is the spread of cancer (breast or lung, for example) from another region of the body to the liver. Liver cancer is usually a single large tumor, while metastases (spread) are usually small and multiple.

The Fatty Liver Diet Guide â€” Does it Work? A Personal Review

It is not known whether diverticulosis can be prevented. As noted above, the amount of fiber that one eats does not appear to be related to the development of diverticulosis, so eating a high-fiber diet may not prevent diverticulosis.

Diverticulosis and Diverticulitis | ACG Patients

22% of men survive pancreatic cancer for at least one year, and this is predicted to fall to 4% surviving for five years or more, as shown by age-standardised net survival for patients diagnosed with pancreatic cancer during 2010-2011 in England and Wales.[] Survival for women is similar, with 20% surviving for one year or more, and 3% predicted to survive for at least five years.

Pancreatic cancer survival statistics | Cancer Research UK

Gallbladder removal is one of the most commonly performed surgical procedures. Gallbladder removal surgery is usually performed with minimally invasive techniques and the medical name for this procedure is Laparoscopic Cholecystectomy or Laparoscopic Gallbladder Removal.

Gallbladder Removal Surgery (Cholecystectomy) Patient

Cancer is a group of diseases involving abnormal cell growth with the potential to invade or spread to other parts of the body. These contrast with benign tumors, which do not spread. Possible signs and symptoms include a lump, abnormal bleeding, prolonged cough, unexplained weight loss and a change in bowel movements. While these symptoms may indicate cancer, they may have other causes.

Cancer - Wikipedia

The two main types of lung cancer are non-small cell lung cancer and small cell lung cancer. Smoking causes most lung cancers, but nonsmokers can also develop lung cancer. Start here to find information on lung cancer treatment, causes and prevention, screening, research, and statistics on lung cancer.
