

### **dog crate training separation pdf**

Crate training is the process of teaching a pet to accept a dog crate or cage as a familiar and safe location. Advocates claim that dogs are den-dwelling animals and that a crate can become a den substitute. While this is a widely held belief, there is little evidence to support it. Regardless, most puppies can learn to tolerate crate training if it is introduced properly.

Dog training is the application of behavior analysis which uses the environmental events of antecedents and consequences to modify the behavior of a dog, either for it to assist in specific activities or undertake particular tasks, or for it to participate effectively in contemporary domestic life. While training dogs for specific roles dates back to Roman times at least, the training of dogs ...
